#### AT CHESAPEAKE BEACH

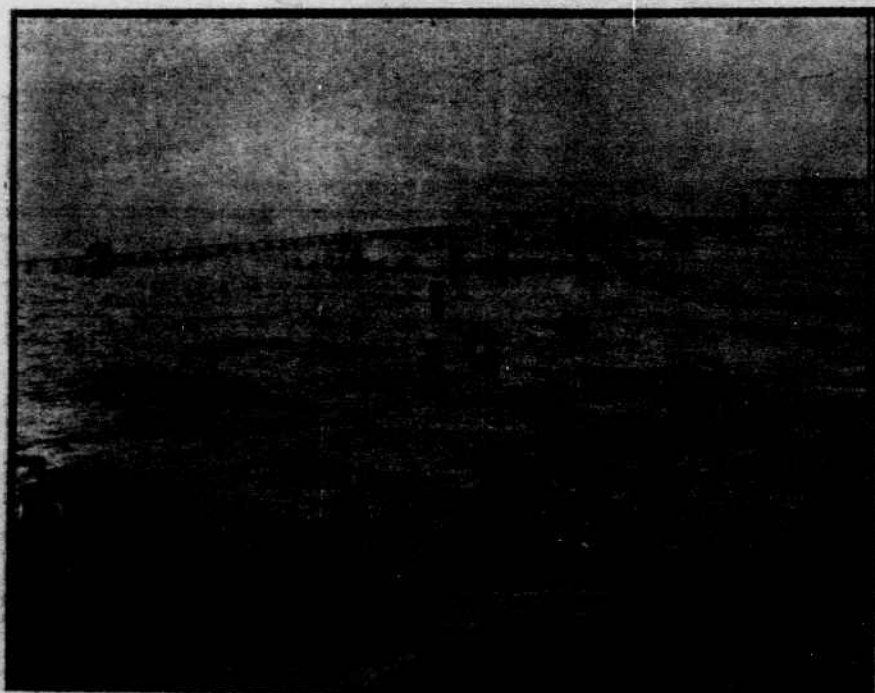

POPULARITY OF RESORT IN-  
CREASED BY IMPROVEMENTS.

Bathing Beach an Attraction—Two  
Miles of Boardwalk—Railroad  
Cars Renovated.

Now that the weather has made it im-  
perative that some respite from the sultry  
suffering of the city should be secured, the  
boundaries of Chesapeake Beach have been  
taxed to their utmost to accommodate the

bathing at the beach is becoming more  
and more popular and during the past  
week the capacity of the big bathing con-  
cession and the shower baths was tested.  
The beach, which is considered one of  
the finest in this section of the country  
for bathing purposes, has been improved  
and smoothed so that at present there is  
nothing to mar the pleasure of a dip in  
the briny. More than fifty dozen new  
suits have been secured by the manage-  
ment of the baths to add to their already  
large stock, and the shower baths, both  
of fresh and salt water, have been im-  
proved and renovated until at present it  
is claimed they have not a peer in this  
section of the country.

The picnic features at the beach have  
proved a marked attraction to those who  
visit the resort in parties. A number of  
church picnic parties and organizations  
have already visited the beach in a body

BATHING SCENE AT CHESAPEAKE BEACH

crowds that daily seek the shade of the  
spreading trees and the cooling breezes  
from the bay. There is a noticeable dif-  
ference between the air at the beach and  
that in the city.

The water at the beach is spread in one  
vast blue expanse and is of the variety  
that is the delight of those who love to  
bathe, paddle or swim in salt water. The

and report that the facilities for picnic-  
ing at the bay resort are surpassed at no  
other resort in or around this city. Hun-  
dreds of rustic pagodas have been erected  
on the grounds for the benefit of those  
who do not care to spread the cloth under  
the shady trees. The lawn at the beach  
have been kept in the best order during  
the early spring and their verdant slopes
